**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1, 2, 4, 6-11 and 16-28 (renumbered as claims 1-22 respectively) are allowed.
  
2. The following is an examiner's statement of reasons for allowance: Lewchuk'363, the closest reference, and the other prior art do not teach or fairly suggest: specifically, the first profile buffer coupled to the first most often (MO) buffer to store the first predetermined profile; and a second profile buffer coupled to the second most often (MO) buffer to store the second predetermined profile (in claims 1 and 11); the step of loading the profile in a second buffer if the first instruction has not been designated to be stored in the first buffer (in claims 19 and 24). Further the combination of the above limitations with all of the other limitations in the respective independent claims is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
